

The Giganet Cabling Solutions products have been designed and manufactured to top International quality standards for end-to-end Category 6 cabling installations. The Giganet Cat 6 UTP Work Area products are available in both the LJ6C (24mm W X 38.59mm H X 19.65mm D) and the standard Euro type (25mm W X 50mm H X 35mm D) to allow single, double and quad combinations with Blanks. The Cat6 unshielded Keystone jacks are individually tested and are manufactured using quality materials and engineered to exceed the latest standards EIA/TIA-568-B.2.1 performance at 250Mhz.

The Giganet Category 6 work area outlets when used with high performance Giganet Category 6 connectivity (solid UTP cable, patch panels and patch cords) provide superior performance capabilities of high bandwidth applications support with 25 years performance warranty.

GIGANET CAT 6 LJ6C MODULES

The Giganet Cat 6 UTP LJ6C Module is designed for ease of installation.

Features and Benefits:

- Category 6 TIA/EIA 568-B.2-1, EN50173-1 & ISO/IEC 11801.2
- 25mm W X 21mm D X 38.5mm H
- Ideal for Ackerman & Dado Floor Boxes
- Industry Standard LJ6C Aperture
- Unique Shuttered Module to prevent dust contamination
- Compact Low profile Design with LSA Style Termination Blocks
