The Giganet cabling system has been designed & manufactured by industry experts who have over 15 years experience and knowledge on Infrastructure Cabling solutions. The Giganet Brand has been developed with stringent quality controls and the Installer in mind ensuring application performance and ease of termination.

With warehouse locations in the UK, Middle East & Africa, Giganet Networking Solutions have stock for immediate deliveries. Our dedicated teams have a specialist level of expertise, to help with design, pre-sales and after sales support.

The Giganet Copper and Fibre systems support full convergence in an ever demanding workplace. The Giganet Brand is the best priced performance solution which is globally manufactured to exceed International cabling standards.

The Giganet Certified Installer training covers best practices in both copper and fibre with theory, videos, e-learning and practical sessions. This prepares accredited Installers to provide a comprehensive 25 years application warranty covering both products and labour.

**GIGANET
25 Year
System Warranty**

The Giganet certified structured cabling training provide a comprehensive in-depth theory and practical skills on design and installation of Intelligent Infrastructure Solutions for emerging high bandwidth applications for copper.

The Giganet 25 years warranty is offered through Certified Giganet Installers who have attended an intensive training which includes both theory and practical hands on terminations All sites installed by a certified Giganet Installer are eligible for an application performance warranty which includes both products and labour. The 25 year warranty guarantees all of its products installed in the cabling channel to be free from manufacturing defects and will support applications and bandwidths as per the system installed. The Giganet products meet and exceed ANSI/TIA/EIA-568-A,ISO/IEC 11801 and CENELEC EN 50173 standards.

FEATURES & BENEFITS

- Introduction
- OSI Layers
- Introduction To Networking
- Telecommunication standards
- Horizontal Cabling
- Backbone Cabling
- Work Area
- Telecommunication Spaces Installation Practices
- Administration
- Testing & Registration
- Warranty Registration
- Electro Magnetic Interference (EMI)

GIGANET
25 Year
System Warranty

FEATURES & BENEFITS

- Introduction
- Fibre Optic Terminology
- Fibre Cable Construction & Types
- Splicing and Terminating Fibres
- Signal Degradation Facts
- Fibre Optic Connectors
- Advantages / Disadvantages of using Fibre Optic
- Optical Fibre Testing
- Pulling Fibre Optic Cable
- Installed Cable Plant Testing
- Fibre Optics Safety

The Giganet Fibre Training course gives delegates the theory and practical knowledge to design, install, terminate and test advance Multimode and Single-mode Fibre optic systems. The comprehensive course covers traditional fibre connector termination methods using Epoxy and primer, polishing and fusion splicing.

This course is recommended for installers, building contractors, facility management personnel, architects, project managers and network engineers working on both internal and external Fibre Installations.

The purpose of this training is to learn data installation with fibre cabling. By the completion of the course the participants can perform fibre installations, including selecting and installing the proper fibre types and terminations.

Giganet Networking solutions provide the end-user with a 25 year system performance assurance and product warranty for telecommunications cabling systems that use Giganet cabling products and approved cable exclusively. The design and installation must comply with the Giganet Networking Solutions specifications and must be installed by a Giganet Certified Installer (GCI).

FEATURES & BENEFITS:

PRODUCT COVERAGE:

Giganet Networking solutions warrants that both the cable and connectivity products, at the time of delivery to the customer are free from defects in materials and workmanship for a period of 25 years from the date of completed installation.

REMEDY:

Giganet Networking solutions shall, at its sole option, repair or replace any nonconforming product, including the cost to reinstall such non-conforming product provided the work is pre-authorized by Giganet Certified Installer and carried out by an approved installer.

SYSTEM PERFORMANCE:

Giganet Networking solutions guarantees that the warranted system shall perform to the transmission performance applicable to the appropriate cabling Category and/or Class for the installed channels as specified in the published editions of ANSI/TIA/EIA 568 and/or ISO/IEC 11801 current at the time of the installation.

LIMITS TO THE WARRANTY

No warranty is made with respect to a product if:

- Such product has been subject to unauthorised repair or alteration.
- Such product has been subjected to negligence, accident, misuse, abuse or improper storage.
- Such product has been supplied by any party other than those authorised to do so by Giganet Networking solutions.
- Such product has been proved to be counterfeit.
- Such a product has been occasioned by accidental or natural hazard, including flood or other water damage, or willful or negligent acts of others.
- Consequential or incidental loss or damages of any kind occur whereby Giganet Networking Solutions shall not be held liable.
- Giganet Networking Solutions will not be liable to settle any claim which exceeds the purchase price of the products and the installation.

Giganet Networking Solutions provides High Quality European Standard Structured Cabling Systems. To get more information on our products, please go to our website at www.giga-net.co.uk
