

Product overview

Giganet's Fiber Termination Box (FTB) is a compact and efficient solution for fiber management in FTTx networks. It provides reliable cable-fixing, fiber splicing, and protection for optical fibers. Ideal for mini-network terminations, the FTB is widely used in applications such as telecommunication networks, data transmission systems, and CATV. Its design ensures easy installation and maintenance, saving both time and cost. The FTB offers secure connectivity, protects fiber splices, and supports distribution and termination for various fiber optic systems. Perfect for controlled environments like telecommunication closets and computer rooms.

Product Features and Applications

FEATURES

- | |
|---|
| Provide fusion and storage application for optical cables |
| Reliable protection appliance of fixing, stripping and earthing for optical cables. |
| Whole range protected design for fiber lay to ensure the bending radius > 40mm |
| Provide various accessories to avoid any unexpected damage to the fiber |

Product Specification

CHARACTERISTICS			
Type	Value		
Fibre Core	4 cores	8 cores	16 cores
Max Splice & Connection Capacity	4	8	16
Dimensions (LxWxD)mm	140x105x28	200x148x30	245x200x48
Cable OD	5-10mm		
Inlet Ports	1(2)	1(2)	1(3)
Material	Cold Rolled Steel Sheet, Electrostatic Spraying		

Ordering Information

GN-FDT-1-2				
GN-FDT-	1	Fiber Cores	2	Adaptor Type
	4	4 Core	FC	FC
	8	8 Core	ST	ST
	16	16 Core	SC	SC
			LC	LC
	Part Number		Product Description	
e.g.	GN-FDT-4-SC		Giganet Fiber Distribution Terminal Box, 4 cores, SC Simplex	

Adaptors & Pigtails has to be ordered separately

Only simplex adaptors can be used
