

Giganet Lococite 7649 is designed to promote the curing speed of Lococite 7649 anaerobic adhesives and sealants without any significant loss of joint strength. It is especially recommended for applications with passive metals or inert surfaces and with large bond gaps. Lococite 7649 is particularly recommended when the application temperature is below 15 °C.

FEATURES

Increases cure speed on passive and inactive surfaces

For large bond gaps

For low-temperature curing (< 5°C)
